

Description of Classes

	<p>CLASS 1: <i>Motorcycles</i> -- All two or three-wheeled motorized vehicles. Typical vehicles in this category have saddle type seats and are steered by handlebars rather than steering wheels. This category includes motorcycles, motor scooters, mopeds, motor-powered bicycles, and three-wheel motorcycles.</p>
	<p>CLASS 2: <i>Passenger Cars</i> -- All sedans, coupes, and station wagons manufactured primarily for the purpose of carrying passengers and including those passenger cars pulling recreational or other light trailers.</p>
	<p>CLASS 3: <i>Other Two-Axle, Four-Tire Single Unit Vehicles</i> -- All two-axle, four-tire vehicles, other than passenger cars. Included in this classification are pickups, panels, vans, and other vehicles such as campers, motor homes, ambulances, hearses, carryalls, and minibuses. Other two-axle, four-tire single-unit vehicles pulling recreational or other light trailers are included in this classification.</p>
	<p>CLASS 4: <i>Buses</i> -- All vehicles manufactured as traditional passenger-carrying buses with two axles and six tires or three or more axles. This category includes only traditional buses (including school buses) functioning as passenger-carrying vehicles. Modified buses should be considered to be a truck and should be appropriately classified.</p>
	<p>CLASS 5: <i>Two-Axle, Six-Tire, Single-Unit Trucks</i> -- All vehicles on a single frame including trucks, camping and recreational vehicles, motor homes, etc., with two axles and dual rear wheels.</p>
	<p>CLASS 6: <i>Three-Axle Single-Unit Trucks</i> -- All vehicles on a single frame including trucks, camping and recreational vehicles, motor homes, etc., with three axles.</p>
	<p>CLASS 7: <i>Four or More Axle Single-Unit Trucks</i> -- All trucks on a single frame with four or more axles.</p>
	<p>CLASS 8: <i>Four or Fewer Axle Single-Trailer Trucks</i> -- All vehicles with four or fewer axles consisting of two units, one of which is a tractor or straight truck power unit.</p>
	<p>CLASS 9: <i>Five-Axle Single-Trailer Trucks</i> -- All five-axle vehicles consisting of two units, one of which is a tractor or straight truck power unit.</p>
	<p>CLASS 10: <i>Six or More Axle Single-Trailer Trucks</i> -- All vehicles with six or more axles consisting of two units, one of which is a tractor or straight truck power unit.</p>
	<p>CLASS 11: <i>Five or fewer Axle Multi-Trailer Trucks</i> -- All vehicles with five or fewer axles consisting of three or more units, one of which is a tractor or straight truck power unit.</p>
	<p>CLASS 12: <i>Six-Axle Multi-Trailer Trucks</i> -- All six-axle vehicles consisting of three or more units, one of which is a tractor or straight truck power unit.</p>
	<p>CLASS 13: <i>Seven or More Axle Multi-Trailer Trucks</i> -- All vehicles with seven or more axles consisting of three or more units, one of which is a tractor or straight truck power unit.</p>

NOTE: The following criteria should be used for reporting information about trucks:

- a. Truck tractor units traveling without a trailer will be considered single-unit trucks.
- b. A truck tractor unit pulling other such units in a "saddle mount" configuration will be considered as combination-unit truck and will be defined only by the axles on the pulling unit.
- c. Vehicles are defined by the number of axles in contact with the road. Therefore, "floating" axles are counted only when in the down position.
- d. The term "trailer" includes both semi and full trailers.
